

Check if a business is certified

If you would like to find out if a particular farm or company holds a licence with Soil Association Certification you can do so here, using our [online search facility](#).

If you are a Soil Association Certification client, looking for products to use in your supply chain, please fill in our supplier list request form.

[REQUEST A PRODUCT LIST >](#)

Certification checker

Use the search below to find the details of companies that we certify to the various certification schemes that we offer, except those under the [Canadian Organic Regime](#).

To use this checker, you will either need to know the trading name or licence number of the company that you want to check details for.

Enter Company or Farm name (min 3 characters) or Licence ID

Apply for Certification

The businesses listed here are those who are registered under the various certification schemes we operate. Our aim is to provide as much support to organic businesses as we can, to deliver trust in organic certification. We share all information that is available in the public domain according to scheme requirements and ISO 17065 via this directory and on request. We can confirm whether a company is registered with us but for full assurance, you should always request a copy of the company's certificate and trading schedule for a list of approved products or contact us for more information.

Operations that don't hold a valid certificate are removed from this directory, which updates daily. Please allow 24-hours for the information to refresh. If you cannot find who you are looking for however, this does not necessarily mean they are not certified; in this event we recommend that you contact us for further information.

Couldn't find what you were looking for?

Make a supplier list request

Before we are able to share any licensee information with third parties, we are required under GDPR to check what the information will be used for. Please fill in the below form and we will review your request within 5 working days.

Organic Scamon – the List of Shame!

- Soil Association Certified Salmon Farms & Salmon Farming Businesses (as of 23/3/2022)
